# DESIGN SPACE

The program creates a new avenue for professionals for higher education and is designed to focus towards academia; PhD and industry practices inclusive of Industry related Research & Development.

---

The nature of fashion has evolved beyond its association with only apparel and has become multi-disciplinary and multi-dimensional. Likewise its approach to various concepts, material, technology, craftsmanship, culture, business, economics, promotion, consumption etc. has evolved creating grey areas that present immense scope for study and response. The program has students across discipline students who are able to work beyond boundaries and bring together their skills and ideas in new and exciting ways taking the existing skill set to a higher level of research and practice.

Students would provide a critical approach to solution of future problems; as well as provide design innovations for the growing fashion industry. Opportunities created in an open market structure has created emergence of niche areas in the Design industry. These areas are at a nascent stage but form a base for opportunities in sunrise industries. Additionally, there is a wider place for industry professionals in key positions at higher level in the established industries. The Master's program at NIFT is designed to cater to these burgeoning requirements of industry in the forthcoming years.

(The above mandate is based on the assumption that the students applying for M.Des Program would be familiar with fundamentals of design.)

**DEGREE** Master of Design

**DURATION** 2 Years

**CENTRES** Kannur, Mumbai, New Delhi & Chennai

**SEATS** 120 (30 seats each at Kannur, Mumbai, New Delhi & Chennai)

## CAREERS

Students graduating from this program would be equipped to hold key positions in large fashion or corporate houses, accessories, craft, textiles, forecasting, special needs, publications, media, lifestyle products, new product development, graphics etc. based on the area of specialization pursued by them.
